**Ninth Grade Counts** is a network of summer transition programs for incoming ninth graders. Since 2009, Ninth Grade Counts has brought together non-profit organizations, schools, and other partners to connect more youth, particularly those most academically at-risk, with proven supports to stay on track to graduate from high school.

**All Hands Raised** is an organization committed to relentlessly and systematically connecting our community's diverse assets, with the explicit goal of working in new ways together to improve our kids' success inside and outside of school. With an emphasis on racial equity, we utilize data to shine a light on areas where we are failing and co-design solutions—creating shared accountability, responsibility and credit. Together we are, every day, improving outcomes for over 220,000 children, youth and young adults in Multnomah County. Learn more at [www.allhandsraised.org](http://www.allhandsraised.org)
